Our client-centered focus ensures that our clients get concierge service at a great value.

PRESENTATION TOPICS OFFERED

Overview of the Legal System

Alexandra introduces a broad overview of the legal system, beginning with the types of courts that are available for different legal situations, then steps on how to file or respond to a lawsuit, some terminology and how the process goes, and then concludes with some financial considerations. This presentation can be tailored to family law specifically.

Building Your Business Plan

In this interactive presentation, Alexandra discusses the basic parts of a solid business plan. She also demonstrates how elements of a business plan can also be applied to your personal life as well as in a divorce.

Alternatives to Divorce

Not everyone who is stuck in a bad marriage wants to get divorced. In this presentation, Alexandra discusses some more creative alternatives to divorce, as well as tips on preparing for divorce if it ultimately comes to that. This presentation may be helpful to church groups and other groups who want to encourage healing rather than conflict.

Alimony vs. Spousal Maintenance

There is a lot of misinformation out there about alimony, and Texas has an interesting perspective on it. For those curious about what they may be entitled to in the form of financial support from their spouse in a divorce, this presentation is for you.

***** All presentations include helpful handouts and resources for the audience. *****

ALEXANDRA'S STORY

“Life is too short to spend it immersed in an unhealthy relationship.”

Imagine for a moment, what that statement means.

How do you think a person who is trapped in a bad marriage or unhealthy relationship feels?

Hopeless? Afraid? Depressed? Angry? Ashamed? Like a Failure?

Now, throw kids into the mix. If there are children in that relationship, how do you think they feel about being trapped in unhappy marriage?

Hopeless? Afraid? Depressed? Angry? Ashamed? Like a Failure?

And if these children grow up feeling this way, absorbing that unhealthy relationship, modeling the behavior they see, how do you think that affects them?

Choosing to stay in an unhappy marriage doesn't just affect the spouses. A bad marriage has far reaching consequences, affecting the children, their children, and future generations. One bad marriage can have a ripple effect on the rest of society that lasts decades.

I know, because I was the child of an unhappy marriage.

I'm a divorce lawyer who frees people trapped in bad marriages and guides them toward brighter futures.
